Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner called Mr. Sulsky to discuss the claim amendments (dated 07 July 2009) that require a conversion of non-alphanumeric octet values to alphanumeric octet values. Examiner stated that the specification was not enabling for the claims because the conversion discussed in the specification (Pages 7-8) did not convert the values as claimed. Mr. Sulsky stated that the specification includes a typographical error, and that the conversions disclosed (Pages 7-8) should be specific to the decimal values as opposed to the octet values. Examiner stated that he would go over the conversions with the respect to the decimal values. .
